I'm starting the 7-Day DevOps challenge!

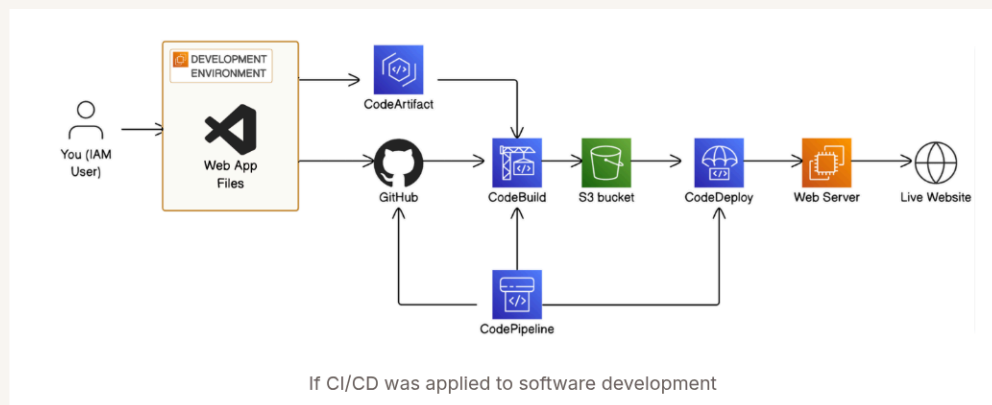

madhavanrx07@outlook.com

MA

I'm building a CI/CD pipeline in 7 days

In this Devops challenge I'm learning about CI/CD in AWS. By the end of the 7 days, I will have experience in deploying a webapp using CI/CD pipeline.

Hold me accountable!

I will set aside an hour daily every day for a week to work on this challenge . I will keep myself accountable by committing to my goal . My reward for completing this DevOps challenge will be a ICE-CREAM treat.

What is DevOps?

DevOps is a set of practices that fosters collaboration between Development and Operations team to deliver reliable software within deadline. DevOps engineers are responsible for implementing the practices in Software development lifecycle.

What is CI/CD?

CI/CD stands for Continuous Integration and Continuous Development/Deployment where when the developer updates the code it gets automatically pushed to the repository and deployed in the production after necessary testing.
